William O. Conway Celebrates Golden Anniversary of His Entrance Into the Land Bureau of the Interior Department-National Bank Figures.

Washington, Feb. 7.-There is no department of the Government in which the people of the West are more directly interested than in the land bureau of the Interior department. Today in this branch of the service Willlam O. Conway celebrated his golden anniversary, having entered the department fifty years ago. His name and his initials appear upon more of-

[TRIBUNE SPECIAL]

ficial papers than those of any other man now living or dead. The anniversary was marked by the presentation of a loving cup, Commisdoner of the General Land Office Richirds making the presentation.

Judge John V. Wright, who was in Congress fifty years ago, when Mr. Conway entered the department, made the address, in which he recalled in a reminiscent way many interesting personal and historical facts. He said in part:

I was the thirteenth who had held the office. He has been succeeded by sev-enteen Commissioners.

effective Commissioners.

"From that day to this, this young man has performed the duties assigned him without complaint, and always true and loyal to his superiors of all parties and loyal to his superiors of all parties and under all conditions. His oldest child cannot remember a day when his father remained at home with his wife and children, enjoying himself in the society of his family around his own hearthstone. He has assisted in the interpretation, construction and execu-tion of almost every law on the statute-backs relative to the disposition of ooks relating to the disposition of public lands. "Mr. Conway has remained here all

these years, through peace and amid the din of arms in a most terrible and destructive civil war, and he is still here today. I am glad to say, with all his faculties unimpaired, his intellect clear and active, his memory perfect and his devotion to duty as sincere, and his attendance as conspicuous, as at any for-mer period of his long and valuable service."

"On this day just fifty years ago, a few years only after the creation of the office of the Secretary of the Interior, a young man from the State of Maryland entered this department in an humble position. This was during the administration of Franklin Pierce as President of the United States. Eleven Presidents have succeeded Mr. Pierce and thirteen Presidents had preceded him. Robert McClelland, the fourth Secretary of the Interior, was then at the head of the department. He has been succeeded by eighteen Secretaries. John Wilson was then Commissioner of this office was feed approximately \$25,000. During the existence of the National banking system 7117. Nat

ized in conformity with the law of 1864, the average capital of this class of banks being approximately \$120,000. The total number of organizations effected since March 14, 1200, is, therefore, shown to be 1852, with authorized capital of \$108,622,000, and bond deposit to secure circulation at date of organization, \$26,241,600. These organizations included 210 conversions of State banks, \$25 State and private banks liquidated 595 State and private banks liquidated for the purpose of reorganizing and 1648 primary organizations.

In January, 1904, there were organized 56 banks, with capital of \$1.859,000, of which 25, with capital of \$635,000, were with individual capital of less than \$50,000, and 11 with aggregate and in-dividual capital, respectively, of \$1,245,-000, and \$50,000 or over. Twenty-one of the banks organized during the month were associations of primary organiza-tions, 13 reorganizations of State or private banks and 2 conversions of State banking institutions.

No man in any of the departments is making a better record than Arthur B. Hayes, former Attorney for Weber county, who was appointed Solicitor of Internal Revenue early last year.

TO SHEAR SHEEP EXHIBITS.

Important Rule Announced by Chief of Live-Stock Department of the World's Fair.

St. Louis, Feb. 7.-A rule having an important bearing upon the shearing of sheep to be exhibited at the World's fair at St. Louis has been announced by Chief F. D. Coburn of the department of live stock, as follows:

"All sheep and goats must have been evenly, closely and properly shorn on or after the first day of April, 1904, and the date of the shearing must be certifled on the application for entry Sheep or goats unevenly or stubble shorn or that have been clipped to conceal defects or to mislead will not be allowed to compete. The judge shall disqualify for competition any sheep or goat deemed by him as having been improperly or stubble shorn or with its

fleece otherwise treated for purposes of fraud or deception."

The question of sheering in connection with the exhibition of sheep has been a vexed one at fairs and expositions for a long time. Chief Coburn has gone into its details with a great deal of care and with the determination. that the same high standard set else-where in the World's fair prize list should prevail in this regard. A draft of a rule was sent to prominent breeders and authorities with the request for suggestions as to the best form. The customs prevailing in other countries and made legitimate through climatic or other conditions, although perhaps not common with sheep breeders in the United States, have been fully taken into account. The experiences of previous fairs and the necessity of avoiding an unenforceable regulation were considered. The rule determined upon is intended to enforce only such re-strictions as will secure deserved awards.

The Daughter of Prof. Reno of Elwood, Ind.,

RESTORED TO HEALTH BY VINOL Mrs. Reno's Letter and Advice to Mothers, Published by Request

of Druehl & Franken.

Mrs. Reno says: "Our daughter Ma-ion was troubled with indigestion; she ecame fretful, could not sleep at night, lost flesh, and we feared that we should lose her. We tried different doctors, and many kinds of medicines, with no and many kinds of medicines, with no apparent success, until we tried Vinol. Two bottles cured our little daughter, she can eat anything, sleeps well and has gained flesh. We think it is the best medicine in the world for children. I advise every mother who has an all-ing child to try Vinol. I knew nothing equals it, and it tastes so good there is no trouble in getting children to take

A reporter of the Tribune asked Mr. Druehl of Druehl & Franken of this city, who are seiling so much Vinol, re-garding it. Mr. Druehl assured the garding it. Mr. Druchl assured the writer that this is only one of a great many such cases that are constantly coming to their attention where Vinol

has actually saved the lives of children when all else had failed.

"You know, of course," said Mr. Druehl, "Vinol is not a patent medicine and it contains all the medicinal, curative elements of cod liver oil, without the nauseating oil: it is delicious to take, and will make rich, pure, red blood, sound flesh and muscle tissue, and create strength and health more surely and quickly than anything we have ever sold in our store.

"In the strongest manner we unhesitatingly indorze and guarantee Vinol to

increase the appetite, cure stomach troubles, give strength and renewed vi-tality to the aged, build up the run down, tired and debilitated; make the weak strong, cure chronic coughs, colds and build up the convalescent, or will return to the purchaser every dollar paid for it. We just wish every mother in Salt Lake City who has a sick, puny or alling child would try Vinol on our guarantee." Druchl & Franken and Smith Drug company.
